

CERAMICS

C6 PRO COATING ACCREDITATION

In order to qualify for accreditation, we have several base requirements, in addition to a full review from C6 on your business to make sure we are a good fit for each other.

We have many opportunities available, and we are looking for professional detailers that want to take their detailing business and their coating business to the next level.

REQUIREMENTS:

Your business should:

- Operate Full-time
- In business for 2 years, and personal detailing experience of at least 4 years
- Have experience with high end paint corrections and coatings
- Have workspace in a physical building with enough space to apply and properly cure Ethos coatings

**these are the basic requirements. If you do not meet all them exactly, but would like to still be considered, we encourage you to complete the application form anyway.*

To begin the application process to become an accredited installer, please use the following form.

Note - Please fill this form out completely and accurately, failure to do so will hinder our ability to properly evaluate your business for accreditation, and thus may have a negative impact on your accreditation.
